Polish  native

English  B2+ / C1

German  A2

About me

I am a student and dev junior who wants to learn about the latest and greatest solutions. I am currently learning web technologies in both Frontend and Backend. In 1.5 years, through my hard work, I have mastered many technologies and in the future I plan to greatly expand my list of skills. I hope that with my dedication and creativity I will be able to become part of a larger project.

Key Projects

Project INfinity [24 Feb 2023 - Current (main project)]

E-learning platform. Contains high school graduation exams from previous years along with tools to solve them and courses to help you learn. The project includes authentication, payment, video streaming, database connections and animations.

      Vercel

Project microservices [1 Jan 2023 - Current (side project)]

A project I use to learn new technologies and best practices for producing a well-scaling microservices application.

    mongodb  NGINX

Work Experience

> Erasmus+ Intern

TreGi s.a.s [2 May 2022 – 27 May 2022] Ancona, Italy

Familiarization with network and web technologies used in the company's ecosystem. I managed the server's software and services and learned how to use the administrative web application available at the workplace.

> Intern

TELENETIKS [13 Mar 2022 – 7 Apr 2022] Biała, Poland

Learning and practicing computer networking. Gain experience in network management - setting up fiber connections, configuring CISCO and MikroTik routers, troubleshooting, working on SQL databases, customer service.

> Intern (Online)

REVAS [28 Feb 2021 – 25 Mar 2021] Rzeszów, Poland

Learning business leading skills via online business simulator REVAS - "IT Service"
